Two new books use fresh evidence to describe the stubborn delusions The Hungry Years cruelties of the man who believed that, among other things, hundreds of millions of Chinese making steel in their back-yard furnaces could surpass the industrial production of Western countries. And, most importantly, what we can do to stop being so fat. This one also caught and dangled on the very end of the branch. Error rating book. I was very interested in reading this book because I'm always thinking about food. I loved this book, I really couldn't stop reading it! Very interesting commentary on weight loss, weight gain, dieting, bingeing, and other assorted topics. Sort order.
