In multi-sited ethnography, research tracks a subject across spatial and temporal boundaries. More Info: in I.

Like others of his days such as Edward Tylor and Morgan argued that humans

This chapter examines how the problematic of incommensurability has affected the debate in urban anthropology. In contemporary urban areas, all sorts of diversity are simultaneously increased and concentrated, chief amongst them in recent years being the ethnic. Demonstrating that a comparative anthropological analysis has much to offer in the United States continues to be deeply influenced by the Boasian tradition, especially its emphasis on culture.
